FinTech

Financial Technology “FinTech”, is a subject of strategic importance for financial services industry such as Bank, Micro Finance and Money Remittance Service Provider are implementing/upgrading/innovating their products thru digital banking channels like ATM, POS, Kiosk, Internet Banking and Mobile App...etc

FinTech is the best solution for financial services industry to become Branchless, Costless and Convenient for customer.

1- Branchless

- Less fixed & current asset, office rental, and utilities
- Maximize agent service

2- Costless

- Paperless,
- Improve work flow process (replace manual task with technology)

3- Customer convenience

- Reduce crow at counter or banking hall
- Anywhere and anytime
- Low Risk with physical Cash
